Discussed the declaration which will be submitted in response to the final action dated 4-5-2004. Applicants explained the unexpected results obtained with micronized DSRP, which is contrary to that taught by prior art. Examiner suggested to applicants to limit the claims to specific methods of treatment, micron size or surface area of DSRP and the immediate release dissolution profile. Applicants will file an RCE along with the amendment. Examiner will consider the patentability of claims upon filing the response.
